

MANATRON
BETA SITE AGREEMENT

Mr. Vernon Jewell
Bartholomew County Auditor
440 3rd Street
Columbus, IN 47201

Dear Vernon:

Thank you for agreeing to be a beta site for Manatron's MVP Tax application. You and your staff were carefully selected and are part of a critical phase in the development of the MVP Tax product. Your work will help us measure the features and capabilities of our software against the real life experiences of our customers.

In order for beta testing to proceed smoothly, it is important that we all have a clear understanding of our responsibilities and expectations.

Manatron Responsibilities:

1. Provide MVP Tax beta software by Use Case. The first Use Case installed will be Property Maintenance. Manatron will provide a schedule of the remaining Use Cases.
2. Provide support to install and run the MVP Tax beta software.
3. Provide full time on-site assistance during office hours throughout the first 3 days of beta testing.
4. Provide timely feedback.

Customer Responsibilities:

1. Keep all information about beta process and beta software confidential.
2. Use and evaluate the software in the course of normal office activities beginning as soon after installation as possible. Please try to maintain a minimum of two (2) different Political Townships with at least one city within one of those townships. (A minimum of 3 Tax Sets) Manatron will consult with County on selection of these Tax Sets.
3. Document and report all comments on beta software in a timely manner, only to Manatron.
4. Continue normal use of current Tax Billing, Collections, and Distribution applications.

Important Notes:

1. As with a beta version of any software, severe breakdown can occur. Entering data into both old and new systems is required. County should understand that while there will be some additional workload involved, the County also will have the opportunity to be directly involved with, and in some cases responsible for, design changes or new features in the software that will benefit the County.

(Page 1)

2. If there are new features or software design changes requested during the beta process, they will be noted for possible inclusion in future releases. Design changes will not be made during the beta testing period.

RE: MANATRON, Inc. Software (MVP Tax)

This Beta Site Agreement is entered into this 22nd day of Feb., 1999 by and between the Bartholomew County Auditor and Manatron, Inc. The Undersigned, intending to be legally bound, unconditionally agrees not to directly, or intentionally indirectly, disclose any information furnished to us in connection with our use of Manatron, Inc. Beta Software or Beta Release Notes, training or support relating to the data files, data fields, Database Dictionary, Database Categories, or procedures. Manatron retains sole and exclusive rights to all materials and documents in connection with the above. The information is for internal use only and is not to be disclosed by any outside party.

We, the undersigned, Commissioners of Bartholomew County, understand and agree to the responsibilities and activities as defined in page 1 of this Beta Site Agreement for Manatron's MVP Tax application.
